ISF GYMNASIADE 2026

ABOUT ISF GYMNASIADE

The ISF Gymnasiade (World School Games) is consolidating itself as one of the most relevant multi-sport events in the world focused on the educational environment, bringing together thousands of student-athletes in an experience that transcends sports competition. Its realization is based on the understanding that school sport is a strategic tool to address contemporary challenges related to the integral development of young people, such as sedentary lifestyles, lack of motivation at school, and limited opportunities for cultural exchange.

ISF GYMNASIADE 2026

ABOUT ISF GYMNASIADE

The 2026 edition foresees the sporting event taking place over six official days, with a competition program comprising ten sports: Athletics, Para-athletics, Judo, Karate, Taekwondo, Beach Volleyball, Wrestling, Chess, and two exclusively virtual sports: Virtual Cycling and Virtual Rowing, which will be held remotely. TRAVELLING

▶ VACCINES

There is currently no mandatory vaccination requirement for entry into Brazil.

However, the Brazilian Ministry of Health recommends that all travellers update their vaccination status prior to arrival in Brazil, according to the immunization schedule guidelines of their country of origin or residence, especially vaccines against yellow fever, poliomyelitis, measles, rubella, diphtheria and tetanus.

Yellow Fever

According to the guidelines of the Brazilian Health Regulatory Agency (ANVISA), the Brazilian regulatory authority for traveller health, Brazil does not require proof of yellow fever vaccination for foreign or Brazilian travellers entering the country.

Although not mandatory for entry into Brazil, yellow fever vaccination is recommended for all travellers — both foreign and Brazilian — at least ten days before travelling, allowing sufficient time for the vaccine to generate antibodies and ensure adequate protection.

The vaccine is contraindicated for children under six months of age, adults over 60 years old, pregnant women, breastfeeding women with infants up to six months old, cancer patients and immunocompromised individuals. In situations involving epidemiological emergencies, outbreaks, epidemics or travel to risk areas, physicians should evaluate the risks and benefits of vaccination for these groups, considering the possibility of adverse events.

Yellow fever is an acute febrile infectious disease caused by a virus transmitted by mosquito vectors and has two transmission cycles: sylvatic (rural or forest areas) and urban. The virus is transmitted through the bite of infected mosquitoes and there is no direct person-to-person transmission. Yellow fever has important epidemiological relevance due to its clinical severity and potential spread in urban areas infested by the *Aedes aegypti* mosquito.

More information about yellow fever (transmission, symptoms, vaccine indications and contraindications, diagnosis, treatment and general guidance) is available on the Brazilian Ministry of Health website:

[Brazilian Ministry of Health – Yellow Fever Information](#)

Epidemiological information regarding yellow fever in Brazil is available at:

[Brazilian Ministry of Health – Yellow Fever Epidemiological Situation](#)

The list of countries requiring proof of yellow fever vaccination may be consulted on the World Health Organization (WHO) website at:

[WHO – Countries with Risk of Yellow Fever Transmission](#)

Travellers who need to obtain the International Certificate of Vaccination or Prophylaxis (ICVP) may request the document online through ANVISA at:

ISF ACADEMY

ISF GYMNASIADE 2026

ISF ACADEMY

The ISF Academy is the educational center of the International School Sport Federation delivering online and onsite capacity-building activities for teachers, school sports representatives, coaches, officials, and students around the world. It aims to recognize and or to upgrade the knowledge and skills of any of these stakeholders involved or planning to be involved in national, continental, or international sports, educational networks, institutions, events, or organisation.

The mission of this body is to design and deliver short-, mid-, and long-term quality education and capacity-building activities for students, physical education teachers, national school sport representatives, coaches and officials around the world. These educational programmes will be held online on the ISF Academy platform prior to the events and particularly during the organisation of ISF events on-site, after the competition hours.

Therefore, before and during this international ISF event, heads of delegation, coaches, referees, international school athletes, and local school students will have the opportunity to take part in various interactive educational activities on different topics.

ISF GYMNASIADE 2026

ISF ACADEMY

HEADS OF DELEGATION AND COACHES PROGRAMME

The ISF Academy will organise an online webinar, a few weeks before the event to support the Head of Delegation, Coaches in preparing their mission within an ISF event. These online educational & capacity building activities are compulsory to attend for all the following adults' stakeholders taking part in ISF events:

1. Heads of Delegation - **Compulsory**
2. Coaches - **Compulsory**

The programme will be composed of different modules related to the ISF, the Organising Committee, and several crucial subjects related to Safeguarding Children in Sport, Anti-Doping, and Diplomacy in Sport. Other topics might be added as well.

Any adults having key responsibilities towards, the ISF, the Local Organising Committee, and ultimately school students within an ISF international event shall be taking part in this crucial educational programme which will contribute to supporting these adults in their duty and mission before, during, and after the event.

IMPORTANT

The head of the delegation and the coaches will have to participate in the complete training programme to be authorized to receive accreditation for the event.

ISF GYMNASIADE 2026

ISF ACADEMY

► **ATHLETES WORKSHOP**

SAFEGUARDING CHILDREN IN SPORT & ANTIDOPING WORKSHOPS

As well as various webinars taking place several days before the event to support the Head of Delegation and Coaches in preparing their mission within an ISF event (these online educational & capacity building activities are compulsory to attend for all the following adults' stakeholders taking part in ISF events), the ISF's promotion of school sport by the ISF Academy through its international events also involves the transmission of knowledge through workshops on three themes that are dear to us all: **Safeguarding Children in Sport** and **Doping Prevention in Sport**.

ISF firmly believes that children have and must have the necessary inner resources, through these workshops, to understand, identify and react to negative behaviour such as racism, gender inequality or violence and abuse. The challenge for ISF is to find the right way to express difficult ideas and present complicated topics to young people so that they understand, but also so that they correctly apprehend this problem and are able to react to it.

Raising awareness and enabling participants to transfer their knowledge to their peers back home are also key elements of ISF. During this event, athletes from all over the world will attend several workshops sessions given by experts in the field, passing on their knowledge and experience through dedicated, constructive and interactive pedagogy.
